

# PTS - Primo Trade Solutions LTDA

Presentation 2024

## Who we are

PTS - Primo Trade Solutions is a Brazilian company established in 2021, with a strong foundation of experience in technical applications and sales dating back to 2004.

Our core expertise lies in technical sales, as well as the import and export of products for diverse markets and applications.

We specialize in providing high-tech machines, instruments, sensors, and other products, delivering innovative solutions tailored to various industries and their specific needs.

## Sourcing

PTS - Primo Trade Solutions is a sourcing company specializing in products across various sectors, including high-tech sensors, components, machines, equipment, and other items that Brazilian companies find challenging to source locally or at competitive prices. We identify these solutions globally and bring them to the Brazilian market.

PTS - Primo Trade Solutions offers expertise in Industrial Purchasing and Strategic Sourcing, delivering tailored solutions and services that reduce risks, lower costs, and enhance your profit margins. Additionally, if you're interested in importing Brazilian products, we can serve as your local agent, sourcing the best our market has to offer and providing them to your company at competitive prices.
